

Data Retention and Deletion Policy

Effective Date

03 June 2026

Purpose

This Data Retention and Deletion Policy explains how the Private Premium 1-to-1 Communication Platform ("Platform") stores, retains, and deletes user data.

The purpose of this Policy is to promote privacy, transparency, security, and responsible data management.

Data Categories

The Platform may process the following categories of information:

- User Profile Information
- Text Messages
- Photos
- Videos
- Audio Call Metadata
- Video Call Metadata
- Technical Logs
- Security Logs

Each category may have a different retention period.

Text Message Retention

Text messages are retained to support conversation history and continuity.

Retention Period:

- Stored until manually deleted by a user
- May be removed if required for legal, operational, or security reasons

Users remain responsible for their own content.

Photo Retention

Photos are considered temporary media.

Retention Period:

- Automatically deleted from Platform servers after 24 hours from upload

Once deleted:

- Photos cannot be recovered by the Platform
 - Photos may remain available on user devices if downloaded prior to deletion
-

Video Retention

Videos are considered temporary media.

Retention Period:

- Automatically deleted from Platform servers after 24 hours from upload

Once deleted:

- Videos cannot be recovered by the Platform
 - Downloaded copies remain under the control of users
-

Call Data Retention

The Platform does not store call recordings unless explicitly stated and authorized.

The Platform may temporarily retain limited call metadata for operational purposes, including:

- Call Start Time
- Call End Time
- Connection Quality Metrics
- Technical Diagnostics

Retention Period:

- Up to 30 days unless required longer for security or legal compliance
-

User Profile Information

User profile information may include:

- Display Name
- Profile Picture
- Device-Based Identifier

Retention Period:

- Maintained while the user continues using the Platform
 - Deleted when the associated identity is permanently removed
-

Local Device Storage

Certain information may be stored directly on user devices through:

- Local Storage
- Browser Storage
- Application Cache

Such information is controlled by the user and may be removed at any time through device or browser settings.

Security and Abuse Logs

Security logs may be retained for:

- Fraud Prevention
- Abuse Detection
- System Monitoring
- Platform Protection

Retention Period:

- Up to 90 days unless longer retention is legally required
-

Automatic Deletion Procedures

The Platform operates automated deletion mechanisms.

Deletion may occur:

- Immediately upon expiration of the retention period
- In scheduled maintenance cycles
- Through automated background processes

Deleted data may not be recoverable.

User-Initiated Deletion

Users may request deletion of eligible information where technically feasible.

Deletion requests may include:

- Profile Data
- Stored Messages
- Platform Identifiers

Some information may be retained where required by law or security obligations.

Legal Retention Requirements

The Platform may retain certain information beyond standard retention periods when required:

- By law
 - By court order
 - For regulatory compliance
 - For fraud investigations
 - For security investigations
-

Data Recovery Limitations

After permanent deletion:

- Recovery may not be possible
 - Backup systems may eventually overwrite deleted information
 - The Platform does not guarantee restoration of deleted content
-

Policy Updates

This Policy may be updated periodically to reflect operational, technical, legal, or security changes.

Continued use of the Platform constitutes acceptance of the updated Policy.

Commitment to Privacy

The Platform is designed around a privacy-first philosophy.

Automatic media deletion, limited data retention, and user-controlled content management are core principles of the Platform's design.
